2-6 Railway Parade, Camberwell VIC 3124

CAPABILITY

- Process & Mechanical Engineering
- Automation & Control Systems
- Electrical & Instrumentation
- Risk and safety advisory services
- Hazardous Area Design and Dangerous Goods Handling
- Cyber Security
- Digital Engineering & Design
- Systems Engineering & Validation
- Functional Safety

DISCRIMINATORS

- 100% Australian owned & operated
- Certified to ISO 27001: Information Security Management System with in house dedicated team of Cyber Security experts.
- 25+ years experience in complex and highly regulated industries including 14+ years in defence.
- Stringent project delivery in line with the Systems Engineering V model.

QUALITY STANDARDS

Synertec engineers and designers work to comply with a range of Australian and international standards across all disciplines, with in-house systems and validation expertise. Our people, systems, processes, and data is certified to the following international standards:

ISO 27001: Information Security Management System

ISO 14001: Environmental Management System

ISO 45001: Occupational Health and Safety Management System

ISO 9001: Quality Management System

KEY CLIENTS

THALES

- Design of Ammonia, TNT and sulphuric acid storage systems.
- Design & build of PETN Drying Plant
- Sulphuric Acid Storage Facility

DEPARTMENT OF DEFENCE

- Woomera Fuel Installation Upgrade
- Panels for Hazardous Area Electrical Engineering, Fuel Infrastructure Maintenance Engineering

STOLTHAVEN

- Newcastle Terminal Expansion Project

TERMINALS PTY LTD (NOW QUANTEM)

- Port Botany Expansion
- Avgas Storage Facility

ANSTO

- Control and safety systems for nuclear waste processing

JEMENA

- Northern Gas Pipeline

SYNERTEC OVERVIEW

- Founded in 1996, Synertec has strong relationships with its blue-chip clients.
- Delivers specialist engineering and technology solutions to clients in highly regulated, and complex industries.
- Engineering division: Provides multi-discipline expertise across the project lifecycle.
- Technology division: Develops innovations supporting the transition to cost effective, renewable energy.
- 25+ years of experience, including 14+ years in the defence industry.
- Delivering efficient, sustainable solutions, including renewable and off-grid power systems.
- Offices in Melbourne, Perth, and Brisbane.

Synertec are proud solutions partners

Engineering solutions for a better future
